## Visited countries

### Argentina

Argentina is a country full of contrasts, colors and cultures as wide as its enormous size. Being the second largest country in South America, from north to south, who visits it discover places of undeniable beauty, diverse and welcoming cities, glaciers, jungles, deserts, plains, mountains and so much more!

Argentina is not a place to come only once. Everyone who knows it can assure that there is so much to see, that you just have to return and fall in love all over again.

Passionate for football and tango, the Argentinean is very proud to show its visitors the beauties their country has to offer, so have a taste of mate, enjoy a world class wine, fall for tango, eat the humita and fell delighted by its meat. Argentina has it all!

## Regions to discover

## Buenos Aires

Discover Buenos Aires! This fascinating city was founded on the shores of the Rio de la Plata in 1570 and was named after the patron saint of sailors for the good wind ("buen aire").

Thanks to its wide avenues, grand tree-lined boulevards, fine colonial architecture, rows of cafes, superb restaurants to eat a tasty steak, shops and energetic nightlife, make it an amazing destination. The downtown area is still true to its distant past, the city was built by French, Italian and Spanish immigrants, which is why it comes as no surprise that travelers walking through the leafy parks and boulevards could be forgiven for thinking they were in Madrid, Paris or Milan.

Because of its great diversity and monumental size, Buenos Aires presents travelers with the spirit of Argentina. The national dance, the tango, is perhaps the best expression of that spirit practiced in dance halls, parks, open plazas, and ballrooms, an intimate dance combining elegance and an exuberant passion.

## Ushuaia

Travel to the end of the world!, Ushuaia is not only the most southern city in the world, but is also nature and adventure at its best!

Offering amazing views from the Beagle Canal on every corner of this lovely city, we invite you to visit its incredible attractions, like the Light house of the end of the world or Tierra del Fuego National Park, a source of inspiration, adventure, myths and legends, that surrounded by the Martial Mountains, offer its visitors an unique picture in Argentina. Enjoy a hot chocolate or a delicious dinner at candle lights having a look at the sea

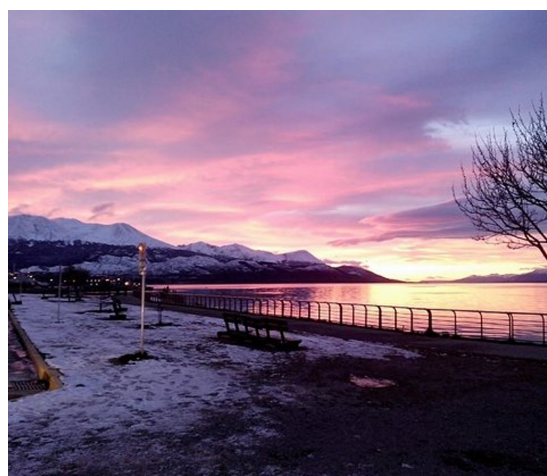

A destination like no other and with an unique energy that, only those who had the chance to experience will know how to describe!

## El Calafate

El Calafate, is one of the most famous tourist destinations of the south of Argentina. Is the entrance door to some of the most stunning and spectacular natural beauties of the whole country, such as Perito Moreno Glaciard, Upsala Glacier, Spegazzini Glacier, O` Nelly Glacier and the Argentinean Lake.

Located in the middle of the immense Patagonia, this lovely city welcomes every year thousands of visitors who come to fall in love with its beauties and enjoy its many varieties of excursions.

Trekking, hiking, horse back riding, kayaking and walks over ice, El Calafate gives you the chance to experience unforgettable activities which will leave you breathless and eager to find out what else is there to be discovered!

## El Chalten

El Chalten is a magical and picturesque little town which was founded beneath the Glaciers National Park. Warm and under the surveillance of the Condor, this mystical place is also known as the international capital of trekking in Argentina; and for a reason, since it has many different walking trails that will lead you to many of the amazing beauties this place has to offer, such as Mirador de los Cóndores, Laguna Capri, Laguna Torre and of course, the magnificent Fitz Roy mountain.

Just a couple of hours away from El Calafate, El Chalten has a wide variety of commodities to make your stay unique; hotels, restaurants, wineries, guide services and tour agencies.

Magic, nature and adventure, three words that describe this beautiful and young place.

It's a low-difficulty excursion planned for everyone. It starts when we pick up our passengers at their hotels to take them to the Tierra del Fuego National Park, which is just 12 km away from the city.

Before we get to the park, there is a previous stop: The Train of the End of the World.

Those who wish to take this optional ride will be making the same way prisoners made many years ago, logging down trees and collecting firewood for the small old town of Ushuaia. The train goes through magnificent scenery: the woods, rivers, peat bogs and the ruins of a native settlement. There is also a stop at Macarena cascade before going into the Tierra del Fuego National Park. It is important to bear in mind that The Train of the End of the World tour is optional from the excursion to the Park, and must be taken only one-way since when the ride finishes, at the National Park station, our guide will be waiting for you to continue the excursion in our vehicle.

Once at Tierra del Fuego National Park we will visit Ensenada Zaratiegui, where you can observe the most typical species of this sub-antarctic wood, such as: Lengas, Ñires, Coihues, some bushes like Calafate and Michay, Canelos and the so-called "Old man's beard". There will be some stops during the trip to enjoy the panoramic views and take pictures.

Then, we will continue towards Verde Lagoon and Lapataia Bay, where some peat bogs and beaver dams can be watched. There will be a final stop at Roca Lake (or Acigami Lake) and, from there, we will go back to the city.
