

MOTOTRCYCLE TOURS IN ARMENIA

Motorcycle tours are powered by our second brand called **NEO RIDE ARMENIA**. Being a mountainous country Armenia seems to be a heaven for both asphalt, enduro and hard enduro tour lovers. Using our own motorcycles Yamaha XT660, we create full land service package tours in Armenia and Georgia. We offer the following tour options to the riders:

100 % Asphalt

We have designed a series of programs which usually have cultural and classical characteristics as almost all roads which are asphalt and are marked, lead to Armenia highlights from South to North.

70 % Asphalt 30% Gravel road

It's quite easy to combine the asphalt roads with gravel. There are a lot of passes and serpentine roads to overpass to experience the beautiful panoramas and sightseeing to go deep into the nature and explore more. So, these tours are for more adventurous ones.

100 % Hard Enduro

The founder of Neo Ride Armenia is an active enduro rider and we offer signature tour tracks from mid to extreme enduro suitable for riders of mid and high levels ability. Armenia is a country where enduro riding is not prohibited yet so don't miss the chance !
