The first part of the excursion is designed as a one-hour ride on the tourist train, along the coast and all the way to the north of the island where the Safari Park is located. On the way, guests have the opportunity to see the golf courses, a Venetian citadel and old farm buildings built in the early 20th century at the time of the Austrian Kupelwieser family.

The tour all together takes 4 hours and before returning back with the boat you will visit museums, permanent exhibitions and St. German's Church, as well as a walk through the Mediterranean garden with a visit to an old olive tree, which slowly ends this excursion across Veliki Brijun.
