

City Tour

Get acquainted with the special inner city of Paramaribo through our City Tour. Together with our guide, you will walk through the streets of Paramaribo, where you will encounter many buildings from the colonial past, such as the wooden St. Petrus and Paulus Basilica and the Presidential Palace. These buildings all have their own special history and a uniform - and symmetrical building style. The historical value of this architectural style has resulted in a large part of the center of Paramaribo being included on the UNESCO International List of World Heritage Sites.

We visit the Central Market where you can get acquainted with the diversity of fruits, vegetables, herbs and other goods that Suriname has to offer. The guide tells you all about the Surinamese kitchen, and maybe you can even taste some of it! We then visit the Keizerstraat where the Mosque and Synagogue are located side by side. This way you can learn all about the multicultural society in Suriname. Fort Zeelandia is also part of our City Tour. Many historical events have taken place at this location, which you will learn about from our guide. During this interesting City Tour, you will learn a lot about Paramaribo, the multicultural society and the special Surinamese cuisine.
